August 29, 2014

To: Lancaster Drive Businesses and Surrounding Residents

Re: Lancaster Drive (South) Improvement Project

Ronyak Paving Inc. began work on Lancaster Drive the week of August 25th. This work included removal of the asphalt surface. The condition of the underlying pavement has dictated that substantial base repairs are required in order to properly correct the existing deterioration in the pavement. Performance of these repairs will extend the life of the resurfaced road in the most meaningful and economical manner.

The quantity and location of necessary repairs means that you may be unable to park in your driveway for a period of up to 3 days. During the 3 days, you will be required to park on the opposite side of Lancaster Drive. You will receive additional notification 24-48 hours in advance of your driveway closure.

We understand that this process will be disruptive and inconvenient to all involved, particularly the local residents. If you have any special needs that we should be aware of, please do not hesitate to contact us. We are sorry for any inconvenience that this may cause and appreciate your patience. Please know that every attempt is being made to complete the project as safely and as quickly as possible, while ensuring that the Village and its residents receive the best possible final product.

Should you have any questions or concerns, you may contact me, the Village Engineer, at (440) 439-1999.

Sincerely,

Michael E. Henry, PE
Village Engineer
