Re: Tuxedo Avenue Gas Line Installation

Dear Resident,

As part of Dominion East Ohio Gas's (DEOG) infrastructure replacement program to improve operations and delivery, they will be performing a gas main replacement on Tuxedo Avenue between Schaaf Road and Granger Road. Based on the scheduled provided by DEOG, the project will begin on June 26th and last approximately three weeks, weather permitting. The contractor for DEOG - DRS Enterprises - is planning to work Monday – Saturday 7 am to 7 pm.

Although traffic will be maintained at all times during construction process, Tuxedo Avenue will be reduced to one lane in each direction throughout the duration of the project. This lane reduction coupled with construction activity may result in minor delays when entering and exiting the project area.

We greatly appreciate your patience during the gas main replacement. If your route passes through this area in the next few weeks, please plan to leave a few minutes earlier or using an alternative route. Should you have any questions or concerns, as usual you may contact me at Village Hall but if you have any specific questions regarding the project please feel free to contact our Village Engineer, Michael Henry, at (440)439-1999.

Sincerely

Mayor Mike Procuk
