	Council Members:	Jennifer Presot
		Matt Walsh
		Mark Lasky

Ms. Presot opened the meeting and stated that the hearing was called as part of the procedure for the 5310 grant through NOACA application process.

Ms. Presot asked how long the application process takes and Ms. Guilfoyle responded that we should have an answer in the fall, probably October. Ms. Presot asked what choices we had for the vehicle. Ms. Guilfoyle responded that we are looking at a 22-passenger bus with two wheelchair positions and other modifications will be decided later in the process.

Ms. Guilfoyle also stated that the current bus is showing its age, especially the under carriage, we've incurred some large expenditures and our mechanic has recommended that we not drive it out of the local area. Ms. Presot asked how many miles our current bus has and Ms. Guilfoyle did not have the mileage with her but stated that the current bus has served us well and is an important part of our fleet for senior transportation. She also shared that Donna Algeri should be commended for her hard work on this application.

Mr. Blados offered to assist with wheelchair lift suggestions.

Ms. Presot concluded the meeting with no further questions.
