## JUNE STEM SUMMER CAMPS AT CUYAHOGA VALLEY CAREER CENTER

All camps run from 8 a.m. - 3 p.m., Monday through Friday. Camp fees are \$195 per week for in-district students & \$205 per week for students residing outside of CVCC's 8-member districts. Sibling discounts are available. For registration & additional information visit [www.cvccworks.edu/CAREERCAMPS.aspx](http://www.cvccworks.edu/CAREERCAMPS.aspx).

### **ENGINEERING SUMMER CAMP (Grades 5-7) June 6-10 and June 13-17**

A great opportunity for students to get an introduction to the world of engineering:

- ♦ Each will begin introducing an engineering discipline. Students will then design, build & test projects which correlate to that discipline.
- ♦ Monday through Thursday will focus on the four main disciplines ( Chemical, Civil, Mechanical & Electrical). On Friday, students will learn the ways engineering helps people.
- ♦ Projects the students will build include: rockets, catapults, balloon cars, flashlights, laser mazes, emergency shelters & solar ovens (which they'll use to cook hot dogs).

### **MEDICAL EXPLORERS CAMP (Grades 8-10) June 13-17**

A new camp this year designed to give students exposure to a range of medical careers. The week will be filled with hands on activities, guest speakers & field trips.

- ♦ Medical areas students will learn about include: Microbiology, Infectious Diseases, CPR/First Aid, Fire Safety, Dentistry, Hospital Careers, Nursing, Sports Medicine/Athletic Training & Physical Therapy.
- ♦ Locations they are scheduled to visit: Cleveland Clinic, CWRU Dentistry, Natural History Museum (Power of Poison exhibit), Tri-C Nursing Lab, University of Akron Sports Medicine & Athletic training Departments.

### **3D Design & Printing (Grades 8-10) June 6-10 & June 13-17**

An exciting new camp this year that will take students through the entire design process from screen to machine. Students will learn how to bring designs to life by creating 3D printed models.

- ♦ On the first day, the students will focus on the basics of hand sketching, drafting & modeling.
- ♦ Day two will unlock the power of the computer, focusing on digital 2D and 3D modeling & design.
- ♦ Throughout the rest of the week students will solve a series of design challenges.

## GIVE DAD A BREAK

- Brown-yellow dormant grass is normal during summer's heat. If you require a green lawn during this time:
  - Water deeply, 1 inch of water 2 times a week
- Relieve lawn stress by applying gentle, slow fertilizers like: compost, compost tea or sea kelp. Synthetic, chemical, high-nutrient fertilizers increase stress on lawns.
- Read the weeds for a healthy lawn. Every weed tells a story and gives clues about lawn conditions. Learn to identify weeds and react accordingly.

## DID YOU KNOW?

Dandelions are not native to North America. Early European colonists brought dandelions over as a source of food and medicine. Dandelion greens are highly nutritious, containing more Vitamin A, K, Calcium and Iron than broccoli per 1 cup serving.

## **VOLUNTEERING – WHO BENEFITS?**

Everybody can benefit from volunteer work, but volunteering can be even more beneficial for seniors. Senior volunteer work is becoming even more popular lately, because many seniors have realized how beneficial volunteering can be for everyone involved. If you have been considering if you should volunteer here are some reasons why volunteering might be the perfect choice for you:

1. **A Great Way to Spend Free time** - Now that you are retired and not spending long hours working you might find you have a lot of free time on your hands. Volunteering is a productive way to spend your day in a way that you will enjoy. When you are doing senior volunteer work it gives you a reason to get out of the house. Volunteer work lets you do something new and different each day. We all need and want a sense of purpose.
2. **A Chance to Make New Friends** - Volunteering is a great way to spend time with other seniors that have similar interests. You can make many great friends while volunteering. When you meet new people and make new friends it has a positive effect on every part of your life. It always feels great to be around people, and to be having fun doing something that you love doing. This can help replace many of the social relationships lost when you are no longer employed or when family and friends aren't available.
3. **Making a Difference in Someone's Life** - When you volunteer you get the chance to help someone who really needs you. As a senior you have had a lot of life experiences that you can use to help someone else. Whether you are a senior grandparent helping young kids, or a senior companion you will be making a direct impact on someone's life. After a day of volunteering you will go home feeling like you made a difference in someone's life, and that is a very special feeling.

Who needs me? Where can I find a place to volunteer? Are there any places right in my own community, I don't want to drive far? I want to travel, what is available in other parts of the country? More than 26 million senior citizens in the U.S. have already discovered the rewards of volunteering, from tutoring students to serving food in a soup kitchen, running a church rummage sale, recruiting donors for a blood drive or helping with a fund-raising campaign. If you have a spirit to volunteer, a willingness to give of the precious gift of your time...there are many ways for you to get involved. This will not only enhance the lives and purpose of those you serve, but as you can see above, you will directly benefit. Call today, get busy, get involved!

## **CONGRATULATIONS TO OUR SENIORS WHO PARTICIPATED IN THE LOCAL SENIOR OLYMPICS!!**

We had six senior citizens participate in the Senior Resources, Inc. Annual Senior Olympics. Together they brought home 12 medals, exercised, represented Brooklyn Heights and had fun!!

The participants (L-R) are: Friend, Jane Heyduk, Lorraine Safran, Dolores Brzuziewski, John Spilka, Ray Mehalko and Chuck Skoczen. Congratulations to all!!

## **IS YOUR HOME 50 YEARS OLD OR OLDER?**

If your home in Brooklyn Heights is 50 years old or older, you have access to free advice regarding home maintenance and improvement projects! The Cleveland Restoration Society's Heritage Home Program offers free advice, personalized site visits, and access to fixed-rate financing as low as 1.85% to cover project costs. To schedule a free site visit or to learn more about qualifying for a low-interest loan, call (216) 426-3116 or visit <http://heritagehomeprogram.org>.

Thanks to the following for another successful Parma Elks Soccer Shoot:

Elk Members: PER Candie Harris, Bill Donley, Joe Donley, Anna Marie Donley, Lisa Docherty, David Docherty & PER Mayor Mike Procuk

Volunteers: Narlin Shadd, Jamie (Shadd) Matson, Tom Lahiff, Jim Gatt, Cindy Gatt & Beverly Procuk

We had our largest turnout ever! The weather was wet at times and the score sheets got soaked, but everyone had fun. We served 200 hot dogs to families and friends of our 47 contestants. We will be represented by boys and girls in all age groups, as they compete at the District Shoot Out on June 18<sup>th</sup>. Special thanks to Director Ed Hatgas and our Service Department for preparing our fields to accommodate 4 games, and the Shoot Out, all going on at the same time. Extra Special Thanks to our Spring Soccer Director Narlin Shadd for coordinating not only the soccer shoot, but another first ever practice session the evening before. Good luck at the District and hopefully the State Shoot Outs!

Past Exalted Ruler  
Mayor Mike

CUYAHOGA COUNTY  
BOARD OF HEALTH  
YOUR TRUSTED SOURCE FOR PUBLIC HEALTH INFORMATION

Vector Control Program

Re: Zika Virus information for distribution to your residents

Thank you for helping to distribute the important information provided below to your residents. The Cuyahoga County Board of Health (CCBH) looks forward to working closely with your community to help protect the residents of Northeast Ohio from mosquito-borne disease. Please feel free to contact Joe Lynch, Vector Program Manager, at 216-201-2000 x-1241 with any questions regarding vector control or to discuss this issue in detail. You can also visit our website, [www.ccbh.net](http://www.ccbh.net), for more information.

\*\*\*\*\*

The Cuyahoga County Board of Health continues to work closely with the Ohio Department of Health and conducts surveillance to monitor for mosquitoes that may transmit disease, including the Zika virus. Although local transmission of Zika virus through the bite of a mosquito has not been identified in the continental United States, the U.S. mainland does have two species of mosquitoes that can become infected with and spread Zika virus. The primary vector for transmitting Zika, the *Aedes aegypti* mosquito, is not established in Ohio and is found in the Southeastern States. A possible second vector, the *Aedes albopictus* mosquito, is also known as the Asian Tiger mosquito and is rarely found in Northeast Ohio.

These species of mosquitoes do not breed in storm water control basins or woodland pools. They prefer to breed in water that collects in artificial containers (tires, buckets, garbage cans, flower pots, children's toys, etc.). Residents can help reduce the local mosquito population by removing any type of container that can hold enough water for a week or more.

U.S. travelers who visit a country where Zika is found could become infected if bitten by a mosquito. Any spread of the Zika virus in the U.S. would have to start with the introduction of infected persons, who would need to be once again bitten (within a week of becoming ill) by the specific mosquito species mentioned previously. These infected mosquitoes could then transmit the virus when they bite and feed on others. Although

very limited local transmission could potentially occur in the U.S., it is extremely unlikely that we will see any widespread local transmission of Zika here in Northeast Ohio.

Please keep in mind that nearly every year we continue to have local human cases of West Nile virus and/or LaCrosse encephalitis. We need to be aware that these mosquito-borne diseases are still here and that we must take necessary precautions to help prevent mosquito bites, especially in mid-to-late summer and early fall.

We ask the public to help prevent mosquito breeding in your neighborhood by:

1. Disposing of containers that collect water (tires, buckets, cans, flower pots, etc.)
2. Eliminating areas of stagnant water
3. Repairing leaky outdoor faucets that leave puddles
4. Emptying and refilling bird baths at least once a week
5. Cleaning, draining and covering pools or hot tubs if not in use
6. Covering rain barrels and unclogging all gutters so they drain properly
7. Filling tree holes with tar or cement
8. Tightly screening all openings of your home
9. Keeping children indoors during times of peak mosquito activity  
(1 hour before and 1 hour after sunset)

We also ask the public to help prevent personal exposure to mosquitoes by using insect repellents containing DEET, picaridin, or lemon eucalyptus oil and following label directions.
