## MOTORIZED SCOOTER LAWS

Motorized scooters are gaining popularity & are now popping up within the Village. Before you consider purchasing either of these types of vehicles, gas powered or electric, please be aware of the following regulations. These are not mopeds or motorized bicycles, as they do not have pedals. They are motorized scooters & fall under two types of vehicle classifications according to current Ohio law.

The first one is designed to sit on. Under Ohio Revised Code this is classified as a "motorcycle". Because it has a seat. It cannot be driven upon any roadway unless the operator has a valid motorcycle endorsement.

The second is designed to stand on. This is also classified as a "motor vehicle". It is illegal to operate because it does not meet any of the equipment regulations to be driven upon any roadways in Ohio.

This does not affect scooters that are pushed or propelled by human power as they are classified as "toy vehicles".

The Federal Government is considering new classifications on these types of vehicles in the near future. Ohio must then enact legislation regarding these vehicles before we can allow them to be operated on Village streets. At this time, to be legal, motorized scooters may only be driven on private property. They cannot be driven on sidewalks as they are too fast & may interfere with pedestrian traffic.

Call Dennis Derbin at our Brooklyn Heights Police Department at 216-741-1327 with any questions.

Brooklyn Heights Police Department

## **2013 Home Days**

This years Brooklyn Heights Home Days has unfortunately been cancelled.

The Park Board has spent a large portion of the past year dealing with paperwork issues involving our non-profit status. This took up a majority of our planning time and the decision was made to focus on planning a great event for 2014

As next years' chairperson, I am excited to have this extra time to plan an incredible event for next year. In order to make this happen, I will need your help. If you would like to see the Egg Hunt, Bonfire, Santa, and Art in the Park continue, then please consider volunteering and help make it happen.

We will have a meeting soon. Please check future Breeze issues for details

The Park Board welcomes everyone

Jennifer Presot  
2014 Chairperson

## **Healthy Trees for a Healthy Watershed**

Trees have many benefits for communities and homeowners, including helping to slow and absorb rainwater. This helps to reduce the amount of stormwater that rushes off surfaces, and therefore reduces the amount of debris and pollutants that are carried to local water sources. Considering Northeast Ohio was covered in nothing but trees hundreds of years ago, it is easy to see the vast majority of trees have been eliminated as the area developed. Increasing the number of trees within local watersheds helps to achieve important goals, such as the reducing the occurrence and severity of flooding, which is one reason to make sure trees are planted correctly to maximize their benefits.

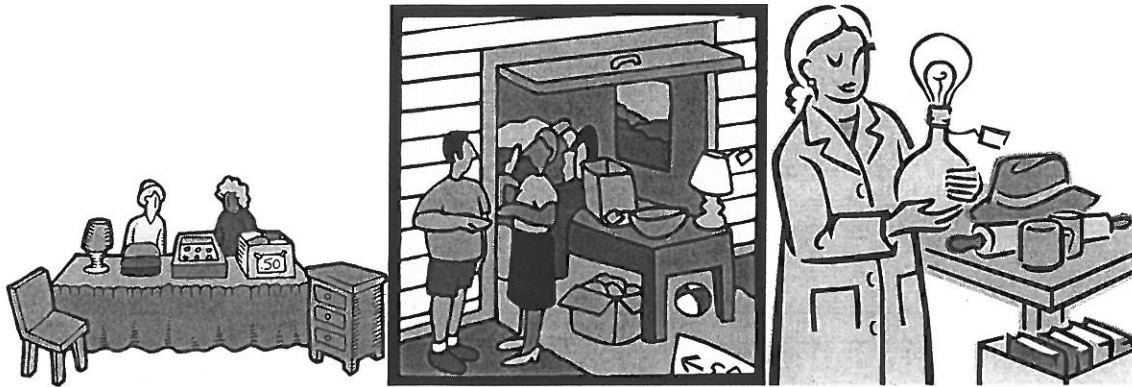

### **Don't Drown the Roots!**

Tree roots require water, oxygen and warmth to grow correctly. When tree roots are buried too deep under mounds of soil and mulch, the amount of oxygen and water that reaches the roots is reduced. A tree responds by sending the root system towards the surface to seek out oxygen and water. This requires the tree to work overtime just for basic needs and reduces the amount energy used to develop a strong root system.

Some trees in this situation are able to develop normally over time, while others have a shorter life span and can suddenly die during wind or ice storms. Not only do we lose these trees that provide stormwater benefits, it can also add to the amount of woody debris that enters our waterways, causing damming and erosion of streams. Furthermore, unhealthy trees with shallow root systems do not promote the absorption of water into the ground as well as healthy trees with deep root systems, which provide a better pathway for water to filter into the ground.
