HOME DAYS 2014

Our next meeting for Home Days 2014 will be on February 27 at 7:00 P.M. at the Community Center. Everyone is welcome. Call if you have any questions.

Jennifer Presot (577-5078)

ALL SENIORS INVITED!

Community Services invites all village seniors to the annual Valentine's Day Luncheon on Tuesday, February 18th at 12:00 p.m.

Join us for a delicious lunch and enjoy music and entertainment by Eric Noltkamper!

RSVP by calling (216) 739-37802. Village transportation is available.

MEN'S SERVICE CLUB

The next Brooklyn Heights Men's Service Club meeting is on February 25 at the Community Center, corner of Tuxedo & Schaaf Road. Doors open at 7:00 p.m. Meeting starts at 7:30 p.m. All village men over 21 years of age are invited to join. Call Tom Lahiff for details at 351-0331.

WOMEN'S SERVICE CLUB

The next meeting of the Women's Service Club is on Monday, February 24 at the Brooklyn Heights Community Center at 7:00 p.m. All women are invited to join us. Dues are just \$6.00 for the year.

2013 SCHOLARSHIP WINNERS TURN IN YOUR GRADES, GET A CHECK. (IT'S THAT SIMPLE)

Attention all 2013 Brooklyn Heights Men's Service Club winners. It's time to turn in your first semester or first quarter grades and redeem your \$500 scholarship.

There are several ways to do this, and all of them are simple and relatively painless.

1. Mail John Black a copy of your grades to 5178 West 5th Street, Brooklyn Heights, OH 44131.
2. E-mail John Black a copy (PDF's recommended) of your grades at blackjo29@gmail.com. Please label the email "BH Men's Club Scholarship Grade Submission."
3. Please note - whatever you provide must show the name, logo or seal of the university, college or training school you attend. Please do not send instructions on how we can obtain your grades from a website or ask us to go to a web address. Doing so will only delay your check. Checks will only be made out to the individual scholarship recipient.
4. Questions, call John Black at 216-374-4518 or Tim Clymer at 749-4300.

STEPS TO TAKE TO PROTECT YOURSELF FROM IDENTIFY THEFT

The steps you need to take will vary depending on the type of information that was exposed.

If it was a credit card or bank account, close any compromised accounts and open new ones.

If your Social Security number was taken, you're at higher risk of new account fraud, a more serious kind of crime in which someone posing as you opens new accounts that may be hard to detect.

To fight back, start by putting a fraud alert on your account. There are two types. Put an initial, 90-day fraud alert on your credit report immediately. Calling any credit bureau will put the alert on your file at all three. Fraud alerts warn creditors they need to verify that the person who's applying for credit is really you. In the meantime, start work getting an extended, 7-year fraud alert.

RIGHT NOW: To put an immediate 90-day initial fraud alert on your account, contact 1 of the 3 credit bureaus. Each is required to share that information with the other two:

Equifax: 1-800-525-6285,**www.equifax.com****Experian: 1-888-397-3742,****www.experian.com****TransUnion: 1-800-680-7289,****www.transunion.com**

LONG TERM: To file an extended, 7-year fraud alert, check with each bureau for its requirements.

MORE INFO: For a step-by-step guide to ID theft and for affidavits to file with credit bureaus, go to: www.consumer.gov/idtheft or call 1-877-438-4338.

IS THERE REALLY A “SAFE” ICE MELT?

Winter is here and it won't be long before the roads, sidewalks, and driveways are covered with chemicals used to melt ice (ice melts). If dogs aren't eating them, they are at least walking through or playing in them! Ice melts pose a problem with both oral ingestion and dermal contact. There are many brands of ice melts on the market but the major ingredients are sodium chloride, potassium chloride, magnesium chloride, calcium salts (calcium carbonate, calcium magnesium acetate, and calcium chloride), and urea based products. Before suggesting a safe ice melt to a client it is critical to know information about the ice melt's ingredients.

Sodium chloride: Large ingestions of sodium chloride can lead to sodium toxicosis and a dose of 4g/kg of sodium chloride can be lethal to dogs. Mild ingestions lead only to gastrointestinal upset such as vomiting and diarrhea, but dogs eating large amounts of this type of ice melt can develop hypernatremia with central nervous system signs, dehydration, tachycardia, tachypnea, hyperthermia, and death.

Potassium chloride: Increased intake of potassium, as seen with large ingestions of potassium chloride salts, is unlikely to produce sustained hyperkalemia unless renal excretion is impaired in the dog. Potassium chloride, however, is a severe irritant and can cause gastrointestinal irritation to the point of hemorrhagic vomiting or diarrhea.

Magnesium chloride: Ingestion of ice melts containing magnesium chloride can be irritating and result in gastrointestinal upset. In addition, hypermagnesemia can occur with very large ingestions, but is unlikely to occur unless the dog has renal disease.

Calcium salts (calcium carbonate, calcium chloride, and calcium magnesium acetate): Calcium salts are the most hazardous as they are the most severe irritants of all the ingredients in ice melts. Ingestion of calcium salts can cause severe gastrointestinal signs as well as local irritation from dermal (skin and paws) contact. Large ingestions of calcium salts are unlikely to increase serum calcium concentrations because multiple other factors are needed to absorb the calcium.

Urea: Urea based ice melts are generally the ones labeled as safe for use around pets. Ingestion of urea usually leads to salivation and mild gastrointestinal irritation, but large ingestions may result in weakness, tremors, and methemoglobinemia.

All types of ice melts have a potential to be hazardous. In general, most ice melt exposures are limited to gastrointestinal upset and local dermal irritation but there is a potential for more serious, life threatening side effects. It is important to educate clients on the potential risks of exposure and inform them of proper storage and use so that exposures can be avoided.
