2012 SCHOLARSHIP WINNERS TURN IN YOUR GRADES, GET A CHECK. (IT'S THAT SIMPLE)

Attention all 2012 Brooklyn Heights Men's Service Club winners. It's time to turn in your first semester or first quarter grades and redeem your \$500 scholarship.

There are several ways to do this, and all of them are simple and relatively painless.

1. Mail John Black a copy of your grades to 5178 West 5th Street, Brooklyn Heights., OH 44131.
2. E-mail John Black a copy (PDF's recommended) of your grades at blackjo29@gmail.com. Please label the e-mail "BH Men's Club Scholarship Grade Submission."
3. Please note - whatever you provide must show the name, logo or seal of the university, college or training school you attend. Please do not send instructions on how we can obtain your grades from a website or ask us to go to a web address. Doing so will only delay your check. Checks will only be made out to the individual scholarship recipient.
4. Questions, call John Black at 216-374-4518 or Tim Clymer at 749-4300.

NOTICE OF COUNCIL MEETING

Next Council meeting will be held Tuesday, March 5 at 7:30 P.M. in the COUNCIL CHAMBERS of the Municipal Center, 345 Tuxedo Ave., Brooklyn Heights, Ohio 44131.

Planting Trees to Improve Water Quality

The problem is polluted stormwater runoff. Trees provide more than just shade and habitat in your yard . . . They can also help protect our water resources! During rain events, pollutants such as fertilizers and pesticides applied in excess of suggested rates, slow drips of oil from cars, and trash are washed away and carried to the closest storm drain, creating polluted stormwater runoff. Unlike our sanitary sewers, what goes into our storm drains is not treated and eventually will empty into a local stream, river or lake. Also, fast moving stormwater can destroy habitats along stream banks and the resulting sediment further destroys habitats by smothering the bottom layer of rocks in streams, rivers and lakes. Pollution and debris in stormwater not only limit the amount of aquatic life that can survive, but it can be costly to clean water resources for drinking and recreation.

Planting trees is part of the solution to reduce the negative impacts of stormwater to our local streams, rivers or lakes. Below are several benefits of trees to water quality:

- Urban forests can reduce annual stormwater runoff by 2 - 7 percent.
- A mature tree can store 50 to 100 gallons of water during large storms.
- Trees improve rainwater infiltration into the soil, which filters out impurities and reduces the amount of pollutants that reach streams.
- Trees provide habitat for hundreds of wildlife species.
- Shaded surfaces may be 20 - 45 degrees cooler than the peak temperatures of similar un-shaded surfaces.

BEWARE OF "I NEED YOUR HELP" SCAMS

Unlike other scams that involve selling or giving something to a potential victim, in this scam the con artist is asking to receive some assistance... and in the process obtains account information or access to funds.

Example: Someone claiming to be a bank examiner, bank security officer or police officer calls asking for help investigating a possible fraud by withdrawing cash from your bank account or providing account information. If the trick works, the bogus investigator can walk away with the money or use the confidential information to raid the victim's bank account. **BE CAREFUL!!**
