**ORANGE BARREL SEASON**

Because our nation is committed to maintaining its roads & highways, there is an enormous amount of continued road maintenance & reconstruction going on in every state. Much of the work is done at night in order to reduce traffic congestion, which means that our workers are harder to see & driving through a work zone can be more difficult.

Remember when traveling through a work zone to be extra attentive to your speed, the current road conditions, changing traffic patterns & our highway workers. Safety is everyone's responsibility. Lives can be saved if motorists do their part.

**Some safety tips for driving in work zones:**

- 1) Slow down. Speeding is one of the major causes of work - zone accidents.
- 2) Expect the unexpected, including altered traffic lanes.
- 3) Don't Tailgate. The most common crash in a highway work zone is a rear - end collision because someone was driving too close to the car in front.
- 4) Keep your vehicle a safe distance from the construction workers & their equipment.
- 5) Obey road - crew Flaggers & pay attention to the signs.
- 6) Stay alert & minimize distractions, such as talking on cell phones & changing radio stations.
- 7) Plan ahead. The National Work Zone Safety Information Clearinghouse,  
<http://wzsafety.tamu.edu>, post links to information on work - zone delays throughout the country.

Call Dennis Derbin at our Brooklyn Heights Police Department at  
216-741-1327 with any questions.

**TIPS FOR SAFE BICYCLE RIDING .... AGES 5 - 10**

- 1) ALWAYS WEAR A BICYCLE SAFETY HELMET. Have an adult help adjust the straps so the helmet is not loose on your head.
- 2) FOR GOOD BALANCE, check to make sure you can touch both feet to the ground when you sit on your bicycle seat. If the seat is too high, ask an adult to lower it for you.
- 3) TELL AN ADULT if anything is broken or wrong with your bike.
- 4) WATCH OUT for people walking & for cars backing out of driveways when riding your bike on a sidewalk.
- 5) "ONE SEAT, ONE RIDER!" riding an extra person on your bicycle is DANGEROUS.
- 6) WEAR BRIGHTLY COLORED CLOTHES so that others can see you better.
- 7) KEEP BOTH HANDS ON THE HANDLEBARS & carry packages in a basket. Carrier, or backpack.
- 8) AVOID riding your bicycle at night or in bad weather.

Call Dennis Derbin at our Brooklyn Heights Police Department at  
216-741-1327 with any questions.

## **VILLAGE FOOD PANTRY - NEWLY UPDATED INCOME LEVELS**

The Village maintains a food pantry for any resident who may need assistance, whether it be temporary or on-going. The pantry contains poultry, meat, dairy items, canned goods, paper products, and personal hygiene items. It is run as a "client choice" pantry meaning that you shop for what your family needs versus receiving pre-packed bags. The pantry is located in its own room, in the service garage, next to the Community Services office.

We contract with the Cleveland Food Bank and receive much of our food free or at a minimal cost through this agreement. In addition, generous donations are received from residents, local businesses and the Women's and Men's Service Clubs.

The food pantry is available to those who meet these eligibility requirements: \$24,279 for a one-person household; \$32,919 for a two-person household; \$41,559 for a three-person household. The amount increases by \$8,640 for each additional household member.

If you feel you may qualify, please call our office and set up a time to shop the pantry. There is no charge and all information is kept strictly confidential.

## **BROOKLYN HEIGHTS MILITARY APPRECIATION**

The Village of Brooklyn Heights is proud to honor those that have served, or are currently serving in our military forces. A display is at the Municipal Center dedicated to those currently serving and a scrapbook honors veterans. Please see the village website for details on submitting military information for your family member or loved one.

## **SUMMER PROGRAM FOR RESIDENT CHILDREN**

Our annual summer Art in the Park program is for resident children and is held at Pavilion #1 in our Village Park. The program includes crafts, sport activities, presentations and field trips. See village website for parent packet and details!

## **Senior Socials...**

[www.brooklynhts.org](http://www.brooklynhts.org)

Community Services holds a senior social twice-monthly at the Community Center. All seniors are welcome and encouraged to attend! Socials are from Noon to 2:00 p.m. unless otherwise noted. Please RSVP by calling 739-3702!

## KATHLEEN KAPUSTA, LISW-S SOCIAL WORKER

National Immunization Awareness Month (NIAM) is an annual observance held in August to highlight the importance of vaccination for

people of all ages. NIAM is sponsored by the National Public Health Information Coalition (NPHIC).

All adults should consider getting recommended vaccines to protect their health, as assessed by a health care professional. Certain vaccines are recommended based on a person's age, occupation or health conditions. Vaccination is important because it protects the person getting the vaccine and helps prevent the spread of disease, especially to those who are most vulnerable to serious complications.

Vaccines are recommended for adults to prevent serious diseases such as influenza (flu), shingles, pneumonia, hepatitis and whooping cough (pertussis).

- Older adults and adults with certain chronic conditions are at increased risk for serious complications from vaccine-preventable diseases.
- Many of these diseases are common in the U.S., and all adults—even healthy adults—can benefit from vaccination.
- Some vaccines can help prevent cancer. Hepatitis B vaccine can prevent liver cancer that can develop after developing chronic hepatitis B. The HPV vaccine can prevent cancers caused by HPV infection.
- Vaccination is important because it not only protects the person being vaccinated, but also helps prevent the spread of diseases to others—especially those who are most vulnerable to serious complications, such as young children, older people and people with certain chronic conditions or weakened immune systems.

Some immunizations are covered by Medicare. One, the shingles shot, is covered by Medicare Part D. Vaccinations that are always covered by Part B include:

- Influenza (flu) shots, including both the seasonal flu vaccine and the H1N1 (swine flu) vaccine
- Pneumococcal (pneumonia) shots
- Hepatitis B shots for people at risk (consult your doctor to determine if you are)

There are many things we want to pass on to our loved ones, illness is not one of them. You want to pass on certain things like family traditions, a grandmother's quilt or dad's love of books—but no one wants to pass on a serious illness. Take charge of your health and help protect those around you by asking about vaccines at your next doctor's visit.

### **Medicare Part B Step Therapy for Individuals Enrolled in a Medicare Advantage Plan**

Effective January 1, 2019, Medicare Advantage Plans may use step therapy for Medicare Part B-covered drugs. Step therapy is a management tool that allows a plan to require an enrollee to try a different, less expensive drug that treats the same condition before it will cover a more expensive drug. Previously, the Centers for Medicare & Medicaid Services (CMS) prohibited imposing a step therapy requirement on Part B-covered drugs. CMS rescinded this decision, claiming to want plans to have more flexibility to negotiate lower drug prices for Part B covered drugs.

While Medicare Part D covers prescription drugs in most cases, some drugs are covered under Part B. These include drugs administered by a provider or at a dialysis facility, but the provider or facility must supply AND administer the drug, and the drug cannot be one that is "usually self administered"—for example, one that is taken orally. Part B also covers some outpatient prescription drugs, mainly oral cancer drugs (chemotherapy).

Step therapy for Part B-covered drugs means a plan may require an enrollee to use a plan-preferred Part B drug before using a different Part B drug. Additionally, Medicare Advantage Plans that include prescription drug coverage may require a beneficiary to use a Part D drug before using a Part B drug, or vice versa. Plans are required to inform beneficiaries of any Part B step therapy requirements in their Annual Notice of Coverage (ANOC) and Evidence of Coverage. If you have any questions, contact your Medicare Advantage Plan provider.
